

When I first met Jeanne in 1998 I was at the end of my tether. I desperately wanted a child but had failed to conceive, despite numerous fertility treatments.

I can't even remember where I saw it advertised, but I convinced my mum to come along with me to a CCDH (Crystal Clear Diamond Healing) course. We were both a bit sceptical but I was at the point where I was willing to give anything a try.

As soon as I met Jeanne she said she could see children all around me even though she didn't know anything about me.

Throughout the course Jeanne maintained that she could see lots of children around me and insisted that I would have at least 3 children - she could even see a little boy who was waiting for me. After the course had ended I continued to have private healing sessions with Jeanne and also a birth frequency session. I always went very deep during these sessions and, once, Jeanne was a bit worried because she couldn't get me back straightaway. Jeanne gave me affirmations and self healing to use at home.

By this point we had applied to adopt and I then discovered we had been chosen to adopt a little girl (age 10 months). I had a reading with Jeanne in April 2002. The cards showed lots of help from spirits and the angels of seraphim working with me. I was very protected by Archangel Michael. There was a pregnancy in the cards - not in the near future, a bit longer. The cards showed it was not yet but it was in the programming. The cards showed at least 3 children - 2 girls and 1 boy.

When our daughter was 3 years old we were asked to adopt her younger brother (also 10 months). We agreed and, once the adoption had been finalised, I discovered I was pregnant. I gave birth to a boy and when he was 3 years old I discovered I was pregnant again! I gave birth to a girl and, because I now have 4 children, my husband had to have a vasectomy to prevent any more! All this after never believing I would ever have ONE child. Jeanne was right all along!

I was always fascinated by Jeanne's stories of what had happened to her and the people she had helped.

Most nights before I sleep I still use the affirmations that Jeanne taught me and I know my mum does too. We have both changed our outlook on life since meeting with Jeanne and both have the view that if something doesn't happen as we would want, then it wasn't meant to be and not to dwell on it. I believe my life would have turned out very different if I had never met Jeanne and am very grateful to her for changing my life.

Thank you Jeanne.
